

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

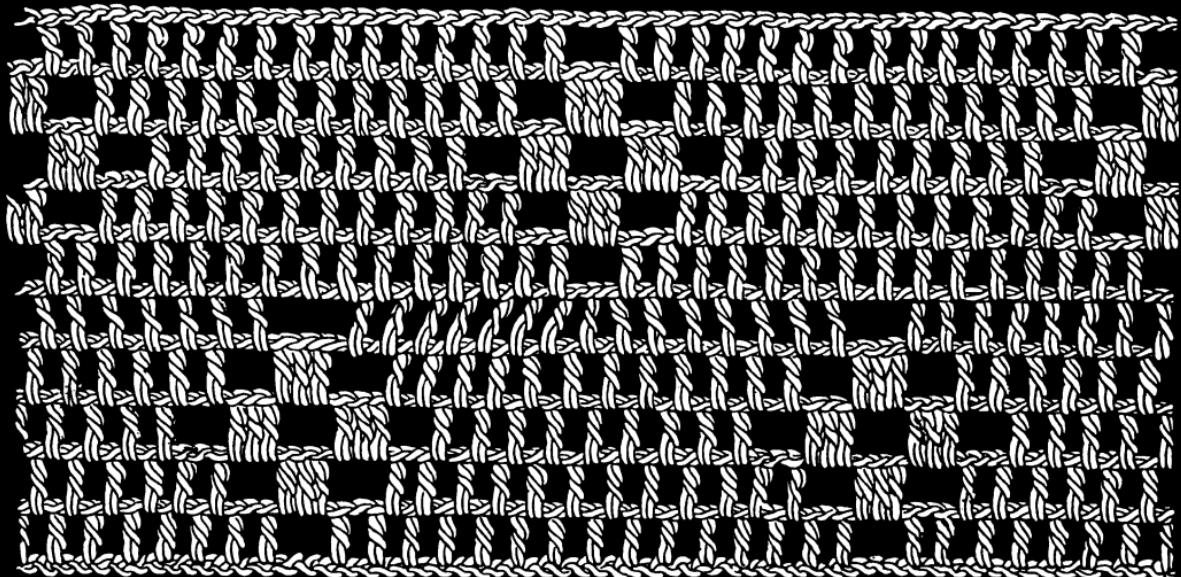

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **Directions for Twenty-four Crochet Doilies in very Beautiful Open Patterns.**

THESE doilies are worked round and round; and, to prevent the commencement of the different rounds being perceived, it is necessary to begin each separately. Most of the rounds are done in the long stitch used in single open crochet, described under that name in my previous works on Crochet. The commencing stitch for each round that begins with a long stitch is as follows:— Lay the end of your cotton between your work and your forefinger, take the cotton up on the crochet and work into the loop or into the hole (as each row will mention), draw the cotton through; you will now have 2 stitches on your crochet, draw the cotton again through one of these stitches, and then through

B

the two, this makes the 1st stitch; the others are done in the usual way. To fasten off the round, you will find the commencing stitch is deficient the chain stitch at the top; to make this, insert the crochet through the loop of the 2d stitch, and draw the cotton through; this will produce 2 loops on your crochet, draw one through the other, cut off the cotton and draw it through to the right side without taking it again on the crochet, then put your crochet through from the back and take this end to the wrong side, tie the two ends together in a firm knot, and cut them off. Boar's-head cotton, No. 8 or 10, and a crochet needle, No. 16, are recommended.

#### *Handsome Sofa Cushion in Coarse Crochet Chenille.*

Make a chain of 14 stitches with black, and cut it off. Work in double crochet, also with black, that is, 2 long stitches and 2 chain stitches, alternately missing 2 loops between. Begin in the first stitch of the foundation, and when you have worked to the end you will have repeated the 2 long stitches 4 times; then make 4 chain stitches, work 2 long stitches at the end of the foundation, make 4 more chain stitches, then work the other side of the loops of the foundation the same as the first, 2 long stitches and 2 chain stitches alternately, and let the 2 long stitches come into the same loops on this side as the other.

When you come to the end make 4 chain stitches, work 2 long stitches into the end of the foundation as before, make 4 chain stitches, and fasten the chenille to the first stitches.

Next row:—Work with scarlet 2 long stitches into the 2 chain stitches of last row, and 2 chain stitches over the 2 long stitches. For the corners, work 2 long stitches into 2 of the 4 chain stitches in the corner of last row, make 4 chain stitches, work 2 long stitches into the other 2 of the 4 chain stitches in last row, then continue as before, 2 long stitches and 2 chain stitches alternately.

The remaining rows of the centre are all like this, and the increasing at the corners done in this manner in every row; it will therefore be only necessary to mention the number of rows and the colours they are to be worked.

Third row:—Work in the lilac.

Fourth row:—Gold colour.

Fifth and sixth:—In black.

Seventh and eighth:—In scarlet.

Ninth row:—In lilac; and, if done rightly, there will be 50 loops on the long side of it, and 38 on the short side. The centre is all done with thick

chenille, and the border in fine. Take 6 shades of green for the border, and commence it with the darkest shade, using a lighter for each row, ending with the lightest of all.

First row:—Begin at the long side, taking 2 of the chains of the corner of last row for this side, work 5 long stitches into successive loops, making a chain stitch after each, then work alternately a long stitch and chain stitch, missing 1 loop between each long stitch till within 4 of the next corner, then work 4 long stitches, with a chain stitch after each, without missing any loops; this will bring you to the centre of the 4 chain stitches at the corner; then make 3 chain stitches, work 3 long stitches into successive loops, making a chain stitch between each, work alternately a long stitch and chain, missing 1 loop between each, till within 2 of the end, then work 2 long stitches into successive loops, making a chain stitch between each. Work the other half of the border to correspond.

stitches, miss 3 loops, work 1 long stitch, make 3 chain stitches, miss 3 loops, repeat the 9 long stitches and these chain stitches with the one long stitch alternately; and at every corner, after working the 9 long stitches, make 3 chain stitches, work 1 long stitch into the centre one of the 3 chain stitches in the last row, make 3 chain stitches, miss 1 loop, and then begin again with the 9 long stitches.

Third row:—Work 7 long stitches over the 9 long stitches in last row, bringing them 1 within on each side, make 3 chain stitches, miss 3 loops of the last row, work 1 long stitch, make 1 chain stitch, work 1 long stitch, make 3 chain stitches, miss 3 loops, and repeat from the 7 long stitches. For the corner, after the 7 long stitches, make 3 chain stitches, miss 3 loops, work 3 long stitches into successive loops, making a chain stitch after each, make 3 chain stitches after the 3d, miss 3 loops, and repeat the 7 long stitches.

Fourth row:—Work 5 long stitches over the 7 of last row, make 3 chain stitches, miss 3 loops, work a long stitch with 1 chain stitch after it, missing 1 loop each time for 3 times; after the 3d, work 3 chain stitches, miss 3 loops, and repeat the 5 long stitches over the 7. For the corner make 3 chain stitches

after the 5 long stitches, then miss 3 loops, work a long stitch and a chain stitch after it, missing 1 loop of the last row, work 4 long stitches into successive loops, with a chain stitch after each, make a chain stitch, miss 1 loop, work 1 long stitch, make 3 chain stitches, miss 3 loops, and repeat the 5 long stitches.

make 3 chain stitches, work a long stitch and a chain stitch alternately, missing 1 loop between each till 5 long stitches are done, make 3 chain stitches, miss 3 loops and repeat. For the corner, after working the one long stitch into the centre of the 3 long stitches, make 4 chain stitches, work a long stitch and a chain stitch alternately, missing 1 loop between each till 4 long stitches are done, make a chain stitch after the 4th and miss 1 loop, work a long stitch into the next loop, make a chain stitch after it, work another long stitch into the same loop and a chain stitch after it, work a third long stitch into the same loop, work a long stitch and a chain stitch alternately missing 1 loop between each till 4 long stitches are done, then make 4 chain stitches and repeat the one long stitch over the 3 in last row. Of course, all the corners are alike, and every row must be nicely joined, and to prevent the join being seen it is better to begin each in a different place.

### Very Beautiful Table Cover.

Work in double crochet, and 8-threaded German wool. The colours will be mentioned as they occur. Take plate No. 22. For a table cover about 2 yards

long, make a chain of about 460 stitches. The narrow pattern is worked in white, and 5 shades of scarlet form the ground; one plain row of the darkest shade is worked before beginning the pattern, and a shade lighter taken for each row; the lightest shade will come for the centre row of the pattern; then reverse the shading, and take one shade darker for each row; the plain row between the pattern, and the next stripe to be of the darkest shade; then work a row of white; next row, work 2 stitches white and 2 black alternately; then 2 rows of black, which form the ground of the wide stripe.

First row of the pattern in dark green.

Second row:—Light green.

Third row:—Dark drab.

Fourth row:—Light drab.

Fifth row:—Light scarlet.

Sixth row:—Dark scarlet.

Seventh row:—Light blue.

Eighth row:—Dark blue.

Ninth row:—Gold.

Tenth row :—Orange.

Eleventh row :—Light lilac.

Twelfth row :—Dark lilac.

Thirteenth row :—Light green.

Fourteenth row :—Dark green.

In choosing these colours it is necessary to have a good distinction between the two shades of the same colour. The stitches that are left in the centre of the pattern are to be worked with white in every row, and not with the ground. After working the fourteenth row of the pattern, work 2 rows of black; then a row 2 stitches black and 2 white alternately; then a row of white; repeat the narrow stripe on the shaded scarlet ground; work a row of black; then a row of 2 stitches black and 2 white alternately; 2 rows of white; repeat the wide stripe on the white ground, working the stitches that were white in the other stripe in black; the colours for the pattern to be worked in the same order as on the black ground. Repeat the narrow stripe between every wide one; the wide ones to be alternately on black and white grounds.

When 14 wide stripes are done, you will have sufficient for a good sized

cover. An open edge done in the shades of scarlet, from any of the patterns in this book, will make a pretty finish. About 3 lbs. of 8-thread German wool will be required; or, if done in 3-thread fleecy, 4 lbs.: it will clean better in the latter.

### **Pretty Border for Table Cover, with Plain Cloth Centre.**

Make a chain of the length required; if for a square or loose cover, the border may be done in 4 pieces as it is less cumbersome to hold; if for a round cover, the whole length must be done at once. Take 6 shades of scarlet or any other bright colour that will suit the furniture of the room it is intended for, and work 1 row of each in double crochet, beginning at the lightest. Take plate No. 17, and work the first row in black.

Second and third rows:—Two stitches black and 2 white alternately.

Fourth row:—White, which forms the ground of the pattern.

Fifth row or first row of the centre pattern work in lilac.

Second row:—In light green.

Third row:—Bright scarlet.

Fourth row :—Dark scarlet.

Fifth row :—Dark blue.

Sixth row :—Light blue.

Seventh row :—Dark gold colour.

Eighth row :—Light gold colour.

Ninth row :—White. Repeat the 2 rows of black and white, 2 stitches of each alternately; then a row of plain black, and 1 row of each of the shades, beginning at the darkest. If the work is well done it will not require pressing, and it looks much better made up without. A dark claret or maroon cloth for the centre, and tassels to match the different colours in the border, are required to finish it nicely.

#### *Grecian Pattern for a Table Cover.*

Make a chain the length required with black, and work 1 row of the same. Take plate No. 12. The 5 first rows of the ground of the pattern to be done in dark scarlet. First and second rows of the pattern in white.

Third row :—Light grey.

Fourth row :—Second shade of grey.

Fifth row :—Third shade of grey.

Sixth row :—Fourth or darkest shade of grey for the pattern, and bright scarlet for the ground of this and the 5 next rows.

Seventh row :—Third shade of grey.

Eighth row :—Second shade.

Ninth row :—Lightest shade of grey.

Tenth and eleventh rows :—White: this finishes the first stripe.

The ground of the second stripe to be of rich claret.

Work 2 rows of the ground.

First row of the pattern in gold colour.

Second row :—Imperial blue.

Third row :—White.

Fourth row :—Bright scarlet.

Fifth row :—Green.

Sixth row :—Bright lilac.

Seventh row :—White.

Eighth row :—Scarlet.

Ninth row:—Blue.

Eleventh row:—Gold colour.

Work 2 rows of the ground.

The colours of the third stripe to be the same as the first, beginning with the lightest ground. Repeat these stripes alternately till the cover is large enough.

Seventh round :—Work a stitch of double crochet, make 7 chain stitches, miss 3 loops, and repeat. This completes the top of the penwiper. Then line it with a bit of dark velvet, and tack it at each point; add a few rounds of cloth and a button.

### Pretty Pattern for a Penwiper.

Take 1 skein each of coarse crochet twist of dark blue and gold; the blue for the ground and the gold for the pattern. The skein of each will make 2 penwipers.

Commence with blue on a chain made as lightly as possible of 6 stitches; unite it, and work round, making 2 stitches in 1 in every stitch. You have now 12 stitches: make 2 stitches in 1 in the next round, which will increase the stitches to 24. Now take the gold colour, and work 1 stitch; in the next stitch, work 2 stitches with the blue; continue this all round: you will then have 12 stitches of gold colour and 2 stitches of blue between each.

In the next round, work 2 stitches of blue in the first stitch of blue, then 1 stitch of gold; in the last, blue and 1 of gold, in this way. Continue in this way increasing a stitch, that is, making 2 stitches in 1, in the first stitch of blue, and a gold in the second, till you have 5 stitches of gold and 2 of blue all round; then, in the 4 stitches of the gold, work in each a stitch of gold colour; and in the last, 2 stitches of blue, and a stitch of blue in each of the other stitches. Continue in each round in this way, increasing on the blue, and decreasing on the gold, till you have only 1 stitch of gold left. If you have rightly decreased the gold and increased the blue, you will have, in the first row, after the 5 stitches of gold and 2 blue, 4 gold and 4 blue; next row, 3 gold and 6 blue; next row, 2 gold and 8 blue; and last row, 2

gold and 10 blue all round. Do 1 row round in plain blue, increasing a stitch in every eleventh all round. Then take the gold colour, and work 1 stitch of gold colour, make a chain of 5 stitches, miss 2 loops, and repeat. This completes the top; it is then made up with cloth as before.

This star pattern is also a very good receipt for increasing the bottom of a bag or purse; it can be done with gold or silver twist, or beads instead, of the colour for the pattern, according to taste.

### Pretty Pattern for a Baby's Shoe.

Ten skeins of white and 8 of pink 4-thread German wool are required.

Make a chain with the pink of 48 stitches, make it round by uniting the first to the last stitch; work in double crochet 1 plain row with the pink, and 1 row of white.

Third row:—One stitch of pink and 3 of white alternately.

Fourth row:—Three stitches of pink, and 1 of white, bringing the centre of the 3 stitches of pink over the first stitch of pink in the preceding row.

Fifth row:—Three stitches of pink and 1 of white, bringing the centre 1 of the 3 stitches of pink over the stitch of white in the row before.

Sixth row:—Three stitches of white, and 1 of pink, bringing the stitch of pink over the middle of the 3 stitches of pink in the row before.

These last 4 rows form a very pretty vandyke border, which is repeated at the bottom of the shoe.

Two rows of white are now worked, and the 2 rows of 2 stitches of pink, and 2 of white. This forms a little square of each colour.

These 2 rows are repeated 5 times more, but every 2 rows the stitches are reversed, bringing the pink over the white, and the white over the pink.

Now take 20 stitches from the front (making the part where the chain joins exactly the back part of the shoe), and work the dice pattern you have been doing twice, that is 4 rows.

You have now to break off at each row. Still work in the dice pattern; but at the beginning and end of every third row, for the next 14 rows, decrease a stitch. This finishes the instep and upper part of the shoe.

Now take up the stitches all round the heel and front, and work 1 row of

white, then work the 4 rows described at the top as vandyke pattern, then work in white a plain row round the heel; it should be 28 stitches. This finishes the shoe all but the sole, which is done in the stitch described as variation of double crochet in my first volume on crochet.

Commence at the toe on a chain of 8 stitches, and work 2 rows.

Next row:—make a stitch at the beginning and end of the row, being 10 stitches, a plain row between, and then increase 1 at the beginning and end of the row, which will be 14 stitches.

Do a plain row and an increased 1 at each end till you have 18 stitches.

Twelve rows plain.

Now decrease at the end of each row every alternate row till you have only 10 stitches.

Increase again in each alternate row till you have 16 stitches, then work 4 plain rows.

Now decrease in every alternate row, as before, at the beginning and end of each row till only 8 stitches are left. This end is the heel of the sole.

It should be closely worked, and must be neatly sewed to the upper part.

A cord and tassels, twisted, of the pink and white wool, is run through at the top of the 2d row of the dice pattern from the heel.

### For a Mitten.

Five skeins of fine black crochet silk, or 3 reels of cotton, and a fine steel needle. Make a chain of 105 stitches, work 3 rows of treble open crochet, cutting off the silk at the end of each row, work 3 rows of double crochet, 1 row of treble crochet.

Eighth row:—Work 46 long stitches into successive loops, make 1 chain stitch, miss 1 loop, work a long stitch into the next, make 1 chain stitch, miss 1 loop, work 4 long stitches into successive loops, make 1 chain stitch, miss 1 loop, work 4 long stitches into successive loops, make 1 chain stitch, miss 1 loop, work a long stitch into the next, make 1 chain stitch, miss 1 loop, work 24 long stitches into successive loops, make 2 chain stitches, miss 1 loop, work a long stitch into the next, make 1 chain stitch, miss 1 loop, work a long stitch into the next, make 2 chain stitches, miss 1 loop, work a long stitch into each of the remaining loops.

Ninth row :—Work 20 long stitches into successive loops, increase 2 stitches by working twice into 1 loop, work a long stitch into each loop till you come to the stitch before the first open stitch in last row.

### Pretty Flower Mat, with Leaf Border.

Make a chain of 4 stitches with shaded scarlet eight-thread wool; unite it.

First round :—Work 2 stitches into each loop.

Second round :—Increase in every other stitch by making 2 stitches in 1 loop.

Third round :—Increase in every third stitch; increase in the same proportion each round till you have 32 stitches, then work a row of single open crochet in plain scarlet (4 shades of scarlet will be required for the border) of the second darkest shade, increase in every fourth stitch, then a row in single open crochet of the second lightest shade, increase in every fifth stitch, then a row of single open crochet of the lightest shade.

For the border :—Make a chain of 6 stitches with the darkest shade, work a stitch of double crochet into each loop,\* turn back and work a long stitch into the first loop, make 1 chain stitch, work into the second loop a long stitch and

chain stitch alternately till 5 long stitches are done, work a long stitch into each of the other 4 loops, and make a chain stitch after each, turn back and work a long stitch into each of the chain stitches in last row, and make 1 chain stitch after each, then cut off the wool, and thread a needle with it, run the end in, and fasten it firmly; this finishes the leaf and border. Then take the second darkest shade and work 6 stitches of double crochet into successive loops. Repeat from \*, taking a fresh shade to each leaf; when you come to the lightest shade reverse the colours and work a second leaf of lightest, 1 of each of the other shades, 2 of the darkest: when 16 leaves are done, it will be sufficient to go round the mat, then run all the ends neatly in, and sew the border on to the last row of open crochet.

### For a Long Purse.

Three skeins of middle-sized dark blue, and 1 of shaded gold crochet-silk are required, and 1 bunch of No. 5 steel beads. Make a chain of 120 stitches with the blue, work 1 plain row, then take the pattern of balls in plate No. 2, and work it in the shaded gold on the blue, work 1 plain row after completing

the pattern, then work 3 rows of single open crochet with the blue, passing 1 bead on each stitch; repeat the pattern and open rows alternately till the purse is the width you wish; finish it with steel slides and tassels: this makes a very pretty and inexpensive purse.

### Vandyke Edging.

Make a chain of the length you wish done, and work 2 rows in single open crochet.

Third row:—\*Work 7 stitches of single open crochet after the 7th; instead of making a chain stitch, draw out the thread into a long loop, turn back and work into the second; work 5 stitches in this row, making them one within on each side of the 7; then turn back, and in the next row work only 3 stitches, and in the next, 1 stitch—this completes one vandyke; then return to the 3d row, and pass the crochet through the end stitch of the 7th, make a chain stitch, and repeat from \*. When the whole of the vandykes are done, run the ends neatly in, and work a row of single crochet round each vandyke.

**For a Jephzen Cushion, in Stripes of Turkish Colours.**

This is done with 8-thread German wool. Make a chain of 110 stitches with black, and work the dividing pattern in plate No. 25; take bright scarlet for the ground of the first stripe, and work the centre pattern from the same plate in 4 shades of grey, with white for the lightest, 2 rows of each; repeat the dividing pattern in black, work the ground of the second stripe in green, the pattern on it in 4 shades of scarlet, repeat the dividing pattern in black; work the ground of the third stripe in lilac, the pattern on it in 4 shades of gold; the dividing pattern is marked between every stripe; work the ground of the fourth stripe in gold, the pattern on it in dark rich shades of blue; work the ground of the fifth stripe in white, the pattern on it in rich shades of scarlet; work the ground of the sixth stripe in blue, the pattern on it in shades of gold: these 6 stripes complete the cushion. Then sew the sixth neatly to the first; a gold satin, or any other colour that may be preferred, is added at the ends, and a stuffing of feathers; cords and tassels are required to finish this nicely.

**For a Long Purse, with Square Ends—Very Beautiful Pattern.**

Five shades, from dark brown to gold colour, 1 skein of each, and 1 of blue crochet silk, and  $1\frac{1}{2}$  bunches of No. 5 steel beads. Make a chain of 80 stitches with the darkest brown; unite it.

First round:—Work in double crochet.

Second round:—Work 5 stitches of double crochet into successive loops, pass a bead on to each of the 3 centre ones, make 5 chain stitches, and repeat.

Third round:—Work 3 stitches of double crochet (a bead in the centre one) over the 5 in last round, make 3 chain stitches, work a stitch of double crochet into the centre one of the 5 chain stitches in last round, make 3 chain stitches, and repeat.

Fourth round:—Work 1 stitch of double crochet into the centre one of the 3 in last round, make 3 chain stitches, miss 3 loops, work 3 stitches of double crochet into successive loops (a bead on the centre one), make 3 chain stitches, and repeat.

Fifth round:—Second shade of brown: work 5 stitches of double crochet over the 3 in last round (a bead on each of the 3 centre stitches), beginning on the last chain stitches before the 3 stitches in last round, make 5 chain stitches, and repeat.

Repeat these last 3 rounds, taking a fresh shade to each 3 rounds. When you have worked to the lightest, work 6 rounds with the blue; then reverse the shades, and work 3 rounds of each colour till the darkest; this you will find is sufficient for one end of the purse. Then work 3 rows of each colour, in single open crochet, backwards and forwards, for the opening of the purse. For the other end, work the same number of rows as the first. A twisted fringe of beads at each end, and steel slides, complete this very elegant purse.

This makes a very pretty short purse, in shades of drab, with bright cerise colour between.

### Beautiful Pine Pattern for a Bag.

Three skeins of very bright violet and four of black middle-sized crochet silk, four bunches of No. 6 beads. Make a chain of 200 stitches with the violet,

and work the point pattern in plate No. 24 with steel beads, then work the pine pattern and edge on the black, work 3 plain rounds of black; after completing the pine pattern join the violet, and work 4 rounds with one bead on each stitch; then work 18 plain rounds without beads; work 7 rounds of single open crochet also with violet; this completes the bag; then double the rounds of open crochet and hem them down neatly, line the bag with violet satin, and add a bead fringe. This pattern is also pretty for a long purse.

Third row :—Work once into each chain stitch until you come to the first increase in last row, then work twice into each of the 3 next chain stitches of last row, once into the next, and twice into each of the 3 next ; for the remainder of the row, work once into each.
